1/31/2025. President Trump's the Deep State BLOODBATH in the past 24 hours:

- All federal prosecutors handling January 6th cases fired, computers locked and marched out of their offices by security.
- David Sundberg, the FBI Assistant Director at the helm of the January 6th investigations, has been fired.
- 20 leaders of FBI field offices have been escorted out of FBI buildings around the country
- The 51 intelligence officers who spread misinformation about Hunter Biden's laptop and interfered in elections are now banned from entering federal properties.
- Federal employees are now required to return to the office, with non-compliance leading to termination.
- John Bolton, James Clapper and John Brennan have been permanently banned from government buildings.
- Jarold Harold Rogers has been indicted for compromising U.S. trade secrets to China
- Ban on all use of pronouns in government communications
- All 2 million Feds sent a resignation offer

This purge marks the beginning of the end for the corrupt tyrants in Washington.

11 days in and the swamp is being drained.
